

EdgeImpulse Inc. Software-as-a-Service Subscription Order Form

This EdgeImpulse Inc. Software-as-a-Service Subscription Order Form (this “**Order**”), issued 20-NOV-2025 (“**Issuance Date**”), sets forth the Services purchased, the Subscription Term(s), the Fee(s), and the related business terms and conditions agreed to by Customer and Edge Impulse through the mutual execution of this Order. This Order is only binding and effective when executed by both Parties. Until such time, it is deemed a non-binding price indication for budgetary purposes only, and such indication will expire thirty (30) calendar days from the Issuance Date. This Order is issued under and is subject to the terms and conditions set forth in the Enterprise Terms of Service for Subscriptions available for review at <https://edgeimpulse.com/legal/enterprise-terms-of-service> and incorporated by reference herein (“**EToS**”). All capitalized terms used but not defined in this Order have the meaning given to such terms in the EToS. For the avoidance of doubt, all monetary amounts identified herein are in United States Dollars (USD).

4. Additional Terms & Definitions:

A. The Parties acknowledge and agree that, solely for the purposes of this Order, the first paragraph of Section 2.2 (License Grant by Edge Impulse) of the EToS is hereby deleted and replaced with the following:

2.2 License Grant by Edge Impulse. Subject to and in consideration of timely payment by Customer of the Fees set forth in an applicable Order, and of Customer's and its Authorized Users' compliance with the other terms and conditions of this Agreement (as defined below), Edge Impulse hereby grants to Customer, solely during the applicable Subscription Term, a Pre-Production Phase Subscription.

B. For purposes of this Order, the following additional definitions are hereby added to Exhibit B of the EToS:

"SDK Algorithms" means select algorithms contained within the Edge Impulse SDK Assets, as made available by Edge Impulse.

"Product" means a unique Customer device, as identified in the Order, into which Customer has incorporated any of the SDK Algorithms during the Subscription Term under an Enterprise License, pursuant to either a Pre-Production Phase Subscription or Production Phase Subscription, and that is the final result of the design cycle for such device (i.e., the point at which the design for the device is sent by Customer to the manufacturer). For the purpose of these Terms, devices consisting of: (a) the same hardware form factor, (b) the same chip set, (c) the same use case (i.e. intended business purpose), and (d) the same set of SDK Algorithms are considered a single Product.

"Pre-Production Phase Activities" means all internal testing, evaluation and development activities, involving a Product, which occur prior to the Production Phase.

The **"Production Phase"** begins the earlier of when a Product is either (a) utilized by Customer in its internal business operations, or (b) when Customer directly or indirectly distributes the Product.

"Pre-Production Phase Subscription" means a royalty free, limited, personal, revocable, non-exclusive, non-transferable (except as otherwise expressly allowed by the Agreement), non-sublicensable copyright license to Customer and its Authorized Users, subject to Section 2.3 (Restrictions) of the EToS, solely for Pre-Production Phase Activities, to internally: (a) access and use the Services via the Internet address provided to Customer by Edge Impulse; (b) use the other Edge Impulse Offerings that Edge Impulse makes available to Customer to test, evaluate, and develop Products; and (c) use, copy, and compile the SDK Algorithms to generate object code of the SDK Algorithms solely to update, upgrade and repair Products, with the scope of (a)-(c) in this clause further subject to the terms of the Agreement, including the applicable Order.

“Production Phase Subscription” means a royalty free, limited, personal, revocable, non-exclusive, non-transferable (except as otherwise expressly allowed by the Agreement), non-sublicensable copyright license to Customer and its Authorized Users, subject to Section 2.3 (Restrictions) of the EToS, solely for the Production Phase, to: (a) sublicense only the object code and executables of the SDK Algorithms solely when embedded as part of and within Products; and (b) reproduce and distribute object code versions of the SDK Algorithms (the **“Software Updates”**) to Customer’s end user customers solely for purposes of installing periodic upgrades and updates onto Products, with the scope of (a)-(b) in this clause further subject to the terms of the Agreement, including the applicable Order. For clarity, the Software Updates may be distributed: (i) directly by Customer to provide support for Products, and/or (ii) as an over-the-air update or via another secure stand-alone distribution process customarily used by Customer to distribute its own proprietary software that includes trade secret information, but in each case solely for purposes of (1) providing repair or support services for Products, (2) updating the ROM of such Products, or (3) otherwise repairing such Products as part of Customer’s ordinary course of business; provided, however, the distribution and use of the Software Updates must be accompanied by and subject to end-user license terms which is at least as protective as how Customer handles and distributes its own proprietary software updates that include trade secret information.

C. The Parties acknowledge and agree that the following new Section 11.11 (Compliance with Anti-Corruption Laws) is hereby added to the EToS:

11.11 Compliance with Anti-Corruption Laws. Customer represents and warrants to Edge Impulse and Edge Impulse’s Affiliates that, in connection with the transactions contemplated by this Agreement or in connection with any other business transactions involving Edge Impulse or Edge Impulse’s Affiliates, Customer, and everyone acting on its behalf, will comply with and will not violate any anti-corruption law or international anti-corruption standards, including but not limited to the U.S. Foreign Corrupt Practices Act 1977, the UK Bribery Act 2010 and the UK Criminal Finances Act 2017. Customer further represents and warrants to Edge Impulse and Edge Impulse’s Affiliates that Customer has not, and covenants and agrees that it will not, in connection with the transactions contemplated by this Agreement or in connection with any other business transactions involving Edge Impulse or Edge Impulse’s Affiliates, make, promise, or offer to make any payment or transfer anything of value, directly or indirectly, to any individual to secure an improper advantage. It is the intent of the Parties that no payments or transfers of value will be made which have the purpose or effect of public or commercial bribery, acceptance of or acquiescence in extortion, kickbacks, or other unlawful or improper means of obtaining or retaining business.

5. Entire Agreement; Counterparts:

This Order, together with the EToS and any and all attachments, exhibits, linked policies and/or documents referenced therein or herein, shall collectively be referred to as the **“Agreement”**. Customer acknowledges that access to the Purchased Services is at all times subject to the Agreement. This Order may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which when taken together shall constitute one agreement. Each Party agrees that the delivery of this Order by facsimile or in electronic format via email shall have the same force and effect as delivery of original signatures and that each Party may use facsimile, electronic format signatures, and photocopies of signatures as evidence of the execution and delivery of this Order by each Party to the same extent that an original signature could be used.

This Order is accepted and agreed by the undersigned authorized representatives of Edge Impulse and the Customer, to be effective as of the Effective Date:
